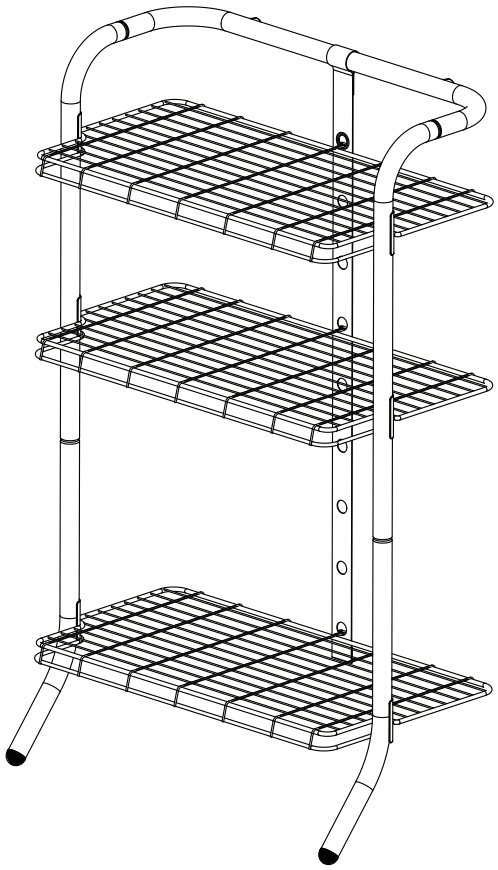
IMPORTANT: READ ENTIRE INSTRUCTION BEFORE ASSEMBLY

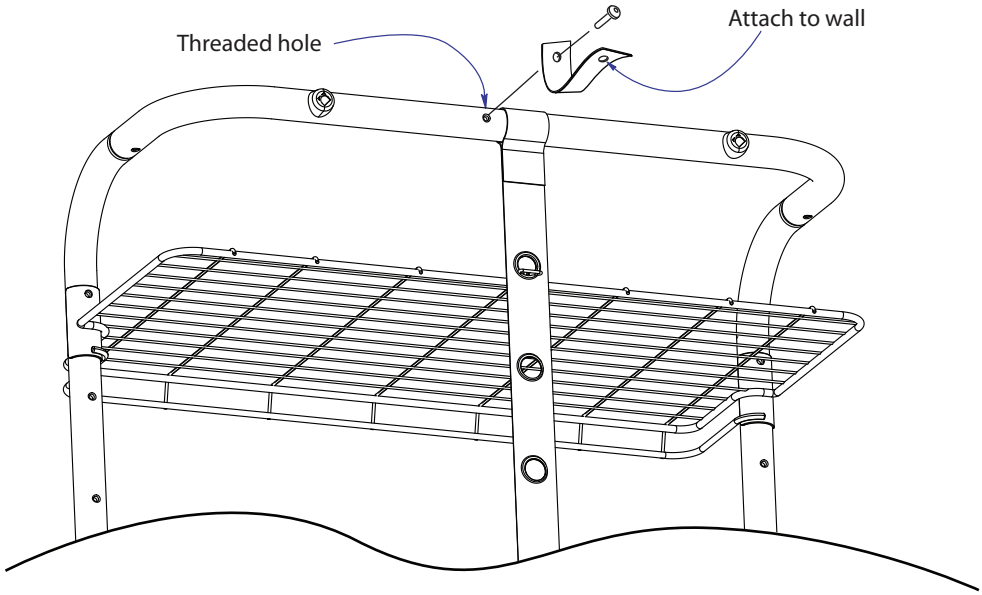
5

Stand shelving unit upright and lean against unobstructed wall so that shelves are level.



6

In order to avoid accidental toppling of the rack, a wall stabilizing strap is supplied. This should be attached to the rack at one end with the bolt provided. The other end of the strap should be secured to the wall using a screw that is suitable for the type of wall construction. If in doubt, consult your hardware merchant for the correct method of fixing based on the wall construction.



Maximum load per shelf (spread evenly) 165lbs (75Kgs)
Failure to follow instructions can reduce the strength of this rack and the load capacity.
SAFTEY WARNING: Do not use as a step ladder. Never allow children to climb on rack.
